SUMMARY

Production operations and media workflow professional with experience across animation, VFX, streaming media, localization, digital distribution and post-production. Builds clear trackers, review systems, status reporting and lightweight tools for evolving creative workflows.

EMPLOYMENT

Crunchyroll - Media Operations

April 2024 - January 2026

- Coordinated release-critical video, audio, timed-text, localization, metadata and partner-distribution assets across simulcast, catalog and home-video workflows.
- Tracked ingest status, missing deliverables, version changes and release blockers across Airtable, Jira, Aspera, cloud storage and internal media systems.
- Built operator-facing browser tools and documented workflows for inventory review, file linking and readiness reconciliation.

The Mill - VFX Coordinator

November 2021 - March 2023

- Coordinated artists, vendors, reviews, approvals and final assets for campaigns spanning broadcast, social and digital delivery.
- Tracked capacity, schedules, budgets, purchase orders, invoices and blockers while supporting producers and cross-functional creative teams.
- Helped establish a company-wide legal-clearance workflow for production assets.

The Third Floor - VFX Production Coordinator

January 2021 - August 2021

- Coordinated previs and postvis workflows for film and game projects across remote VFX teams.
- Managed artist onboarding, task assignments, shot status, review notes, 3D assets and file integrity in ShotGrid.
- Built custom tracking views that improved daily production visibility and review preparation.

Deluxe - Account Coordinator, Localization & Distribution

July 2016 - July 2017

- Managed catalog delivery workflows for theatrical, streaming, digital-purchase, console and channel distribution.
- Coordinated video, audio, subtitle and dub deliverables across external vendors and international release deadlines.
- Validated foreign-language audio and delivery data, resolving mismatches with dubbing and distribution partners.

EDUCATION

Santa Clara University - BA in Communication, 2013

TOOLS

ShotGrid, Ftrack, Airtable, Jira, Asana, Google Workspace, Microsoft Office, Aspera, AWS/S3, Google Cloud, JavaScript, Puppeteer, Python, FFmpeg, OpenCV, Adobe Creative Cloud, Gemini and Codex.
